

Your First Choice In Tooling Solutions

TECHNICAL INDUSTRIAL SALES (T.I.S.) is a distributor of machine tooling. We represent multiple brands of industrial tooling and gages. T.I.S. was founded in 1995 and purchased by Monson, Inc. in December of 2004. Since that time, T.I.S. has experienced tremendous growth in the industry.

At T.I.S., we place a huge emphasis on customer service and strive to ensure your needs are addressed promptly and accurately. We work closely with our manufacturing representatives to review applications or processes and evaluating whether improvements can be made. Our ultimate goal is to reduce our customers total cost per part by increasing machine output through the use of new and improved tooling as the industry develops new technology. Technical Industrial Sales has a great team of sales representatives and inside support staff who you will find to be friendly and efficient in assisting you. You'll be glad you gave us an opportunity to service your tooling needs!
