

DETECTO 750

DIGITAL WEIGHT INDICATOR

Now standard on many Detecto Health Care Scales

- Extra-large, 0.75 inch high digits in an easy-to-read LCD display.
- Compact design is ergonomic and simple for use both by the patient and health care professional.
- Lock/Release key for viewing weight after the patient steps off the scale.
- Units conversion for lb or kg.
- Heavy steel construction for years of reliable service.
- Made in USA quality for convenient parts and service requirements.

The 750 is powered by either 6 "AA" batteries or the AC adapter (optional).

It's easy to remove from the scale column for battery replacement by pulling the locking pin.

Simply push the Body Mass Index key and utilize the toggle arrows to adjust patient height for BMI calculation while weighing.
